

# Sarapiquí Conservation Learning Center

*Linking community and conservation through education and ecotourism*

## Membership Form

Thank you for your interest in becoming a member of the Sarapiquí Conservation Learning Center!

The rainforests are the lungs of the Earth and benefit the entire planet. Yet rainforest conservation projects often bring relatively few benefits to local communities. Local people are key to tropical rainforest conservation, and we help rural communities of Sarapiquí to protect and sustainably use their natural resources.

We focus our efforts in three ways: forming future environmental leaders through our educational programs, planning for sustainable local development and conservation, and connecting ecotourists to the local community.

Your membership contribution will support our programming involving local communities.

Together, you and SCLC will be helping to fashion a greener future for the people of the Sarapiquí region.

Thank you for your support of the Sarapiquí Conservation Learning Center!

*The SCLC is a US non-profit organization, and donations above \$250 are tax deductible using tax ID# 59-3286423.*
